LaredoSun.us (11.08.2013)

The Laredo Sun recently reported about an STD clinic that offers testing and treatment for STDs, including HIV. The clinic at the Laredo Health Department is open every Tuesday and Wednesday from 4:00p.m. to 7:00p.m. Patients can receive low-cost treatment for STDs such as chlamydia, syphilis, gonorrhea, and genital warts, said Juan Mndez, a clinic educator. Right now, the clinic averages 10 patrons every day. According to Mndez, the clinic also hopes to prevent HIV by providing education and free condoms.
